🏠 Kyiv, Ukraine

Profile

I have a technical education and experience in engineering, which allows me to demonstrate attention to detail and analytical thinking. Working with technical documentation has developed my ability to work with requirements and specifications (SRS). I completed the **'QA Engineer'** course at Genius. Space, where I gained knowledge and practical skills in software testing, including functional, regression, and compatibility testing. I possess strong analytical thinking, attention to detail, and organizational skills. I am open to learning and ready to work in an IT team.

Tools and Technologies

- Understanding of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC);
- Fundamentals of software testing: functional, regression, integration, compatibility testing;
- Test documentation development: test cases, checklists, bug reports;
- Knowledge of JSON file creation;
- Experience with **Postman** (API testing);
- Experience with **Jira** (bug tracking);
- Understanding of Agile methodologies (Scrum, Kanban);
- Requirements analysis and test plan creation;
- Basic knowledge of **MySQL**;
- Familiarity with **Git and GitHub**;
- Experience with **SourceTree**;
- Experience with **KDiff3**;
- Experience with **Fiddler Classic**;
- Experience with **Fiddler Everywhere**;
- Basic knowledge of **XML**;
- Experience with **TestRail**;
- Experience with **JMeter** (performance testing).

Experience

1. 09.2020 – present

Leading Specialist in Project Documentation Review Department of Technical Connections and Network Development ПРАТ "ДТЕК КИЇВСЬКІ ЕЛЕКТРОМЕРЕЖІ"
- Analyzing and verifying project documentation for compliance with requirements;
- Working with technical documentation;
- Assessing project compliance with standards;
- Collaborating with development teams and technical specialists.

2. 06.2015 - 09.2020

Engineer of the Connection Department of Technical Connections ПРАТ "ДТЕК КИЇВСЬКІ ЕЛЕКТРОМЕРЕЖІ"

- Analysis and verification of technical specifications;
- Preparation of technical documentation;
- Interaction with departments and clients to organize the connection process.

Education

✿ Master's, Degree in Electrical Power Consumption Systems
National University of Food Technologies
2009 – 2014
Genius. Space – QA Engineer Course (Certificate obtained)
2025
